Spoken interaction B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PROJECTS

CURRENT

Local Logistic Support Team for Almadar Aljadid

My team and I collaborate closely with Dell EMC to offer logistic assistance to Almadar Aljadid, one of the biggest internet service providers in the country.

07/2023 – 05/2024

Expansion of Yaqeen Bank's Data Center

My team and I are currently working on upgrading and modernizing the infrastructure of Yaqeen Bank's data center. To achieve this, we plan to adopt the latest IT industry solution known as PowerFlex, which is a Hyper-Converged Infrastructure (HCI) solution from Dell EMC. This solution will consolidate computing, storage, and networking resources into a single integrated infrastructure stack. This project aims to cater to the growing

demand of the bank, which currently has more than nine branches across the country.

10/2024 – CURRENT

Almadar Aljadid VxBlock Upgrade

Upgraded the Almadar Aljadid Data Center by deploying new servers and expanding storage and backup systems.
